VAPORJET® PC 2400 PROFESSIONAL

DRY STEAM VAPOR SYSTEMS

Going **Green** is
Good for Your Team,
Good for Clients, &
Good for Business.

CFS™ CHEMICAL FREE SANITATION

AMERICAN CULINARY INSTITUTE BEST OF SHOW EXCELLENCE

AVT's VaporJet PC 2400 Professional sets the standard for industrial-strength GREEN sanitation.

AVT's specially designed dry steam vapor systems cover any commercial cleaning need. For small businesses or huge facilities, these dry steam vapor systems with TANCS® offer a patented, scientifically proven process for the most effective sanitation and disinfection available - 100% environmentally safe.

ADVANCED VAPOR TECHNOLOGIES

HEALTH INTENTIONAL CLEANING®

Our patented TANCS® steam vapor systems offer a simple water-only cleaning & disinfection process with scientifically documented results. The VaporJet PC 2400 Professional steam vapor system benefits those who want a system customized for their specific projects. Optional tools and accessories are available for nearly every need.

The tough all-surface cleaning system

- Steam vapor provides a multi-purpose, multi-surface process not available with any other cleaning system.
- Removes grease, ground-in dirt and spots reducing dependence on VOC chemistry.
- Outstanding in cleaning tile and grout.
- De-greases kitchen floors, counters and equipment.
- Cleans and freshens carpets, upholstery, drapes and blinds.
- Makes windows and glass sparkle.
- Portable; details cars, boats and RV's.
- Quick and easy on hardwood floors.
- Sanitizes nurseries and pet areas.

VaporJet® provides a healthier environment!

- Sanitizes, cleans and disinfects in one simple operation with no chemicals.
- Destroys germs, viruses, molds and bacteria.
- Uses only tap water, no hazardous fumes or soapy residue.
