# **SUMMARY OF BENEFITS**

Cigna Health and Life Insurance Co. For - Waxie Sanitary Supply Choice Fund Open Access Plus HRA Plan

Selection of a Primary Care Provider - your plan may require or allow the designation of a primary care provider. You have the right to designate any primary care provider who participates in the network and who is available to accept you or your family members. If your plan requires designation of a primary care provider, Cigna may designate one for you until you make this designation. For information on how to select a primary care provider, and for a list of the participating primary care providers, visit <a href="https://www.mycigna.com">www.mycigna.com</a> or contact customer service at the phone number listed on the back of your ID card. For children, you may designate a pediatrician as the primary care provider.

**Direct Access to Obstetricians and Gynecologists** - You do not need prior authorization from the plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, visit <a href="https://www.mycigna.com">www.mycigna.com</a> or contact customer service at the phone number listed on the back of your ID card.

## **Maximum Reimbursable Charge**

Out-of-Network services are subject to a Calendar Year deductible and maximum reimbursable charge limitations. Payments made to health care professionals not participating in Cigna's network are determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or a percentage (110%) of a fee schedule developed by Cigna that is based on a methodology similar to one used by Medicare to determine the allowable fee for the same or similar service in a geographic area. In some cases, the Medicare based fee schedule is not used, and the maximum reimbursable charge for covered services is determined based on the lesser of: the health care professional's normal charge for a similar service or supply, or the amount charged for that service by 80% of the health care professionals in the geographic area where it is received. The health care professional may bill the customer the difference between the health care professional's normal charge and the Maximum Reimbursable Charge as determined by the benefit plan, in addition to applicable deductibles, co-payments and coinsurance.

# **Multiple Surgical Reduction**

Multiple surgeries performed during one operating session result in payment reduction of 50% to the surgery of lesser charge. The most expensive procedure is paid as any other surgery.
