

# Re<sup>♻️</sup>Claim™

- First in the industry to receive third-party (SCS) certification for recycled content
- Meets EPA Comprehensive Procurement Guidelines (CPG) for post-consumer recycled content
- 75% total recycled content including a minimum of 10% post-consumer recycled content
- Contributes toward credits for LEED projects
- Packaging is made from 20% post-consumer recycled fibers
- Ideal for state and local municipalities that mandate purchasing of recycled content products
- Extra heavy-duty bags are suitable for all trash applications

## WHO IS SCS?

SCS launched the Environmental Claims Certification Program in 1990 as one of the nation's first scientific program for independently certifying environmental claims on manufactured goods and materials.

All claims are certified in accordance with US Federal Trade Commission Environmental Marketing Claims guidelines, and ISO-14021 standards for environmental claims.

The SCS certification logo appears on thousands of individual products and helps businesses, government agencies and consumers to make the best-informed decisions.

## “GREENING” YOUR CAN LINERS – THE NUMBERS

**Savings using recycled plastic versus virgin resin:**  
One hundred cases a month (1,800 lbs.) for a full year equals 21,600 lbs. of plastic. Liners made with 75% recycled content equal 16,200 lbs. of recycled plastic.

**The environmental benefit of one hundred cases a month for a year:**

- Greenhouse Gas Savings = 20 metric tons of carbon emissions saved

OR

- Greenhouse Gas Savings = 4 passenger cars off the road for one year

OR

- Energy Savings = 4,629 gallons of gas saved
